

Blank Dominoes — Print & Cut

Page 1 of 2 · 28 blank tiles · draw your own pips

CardAndPuzzle.com
FREE PRINTABLES & GAMES

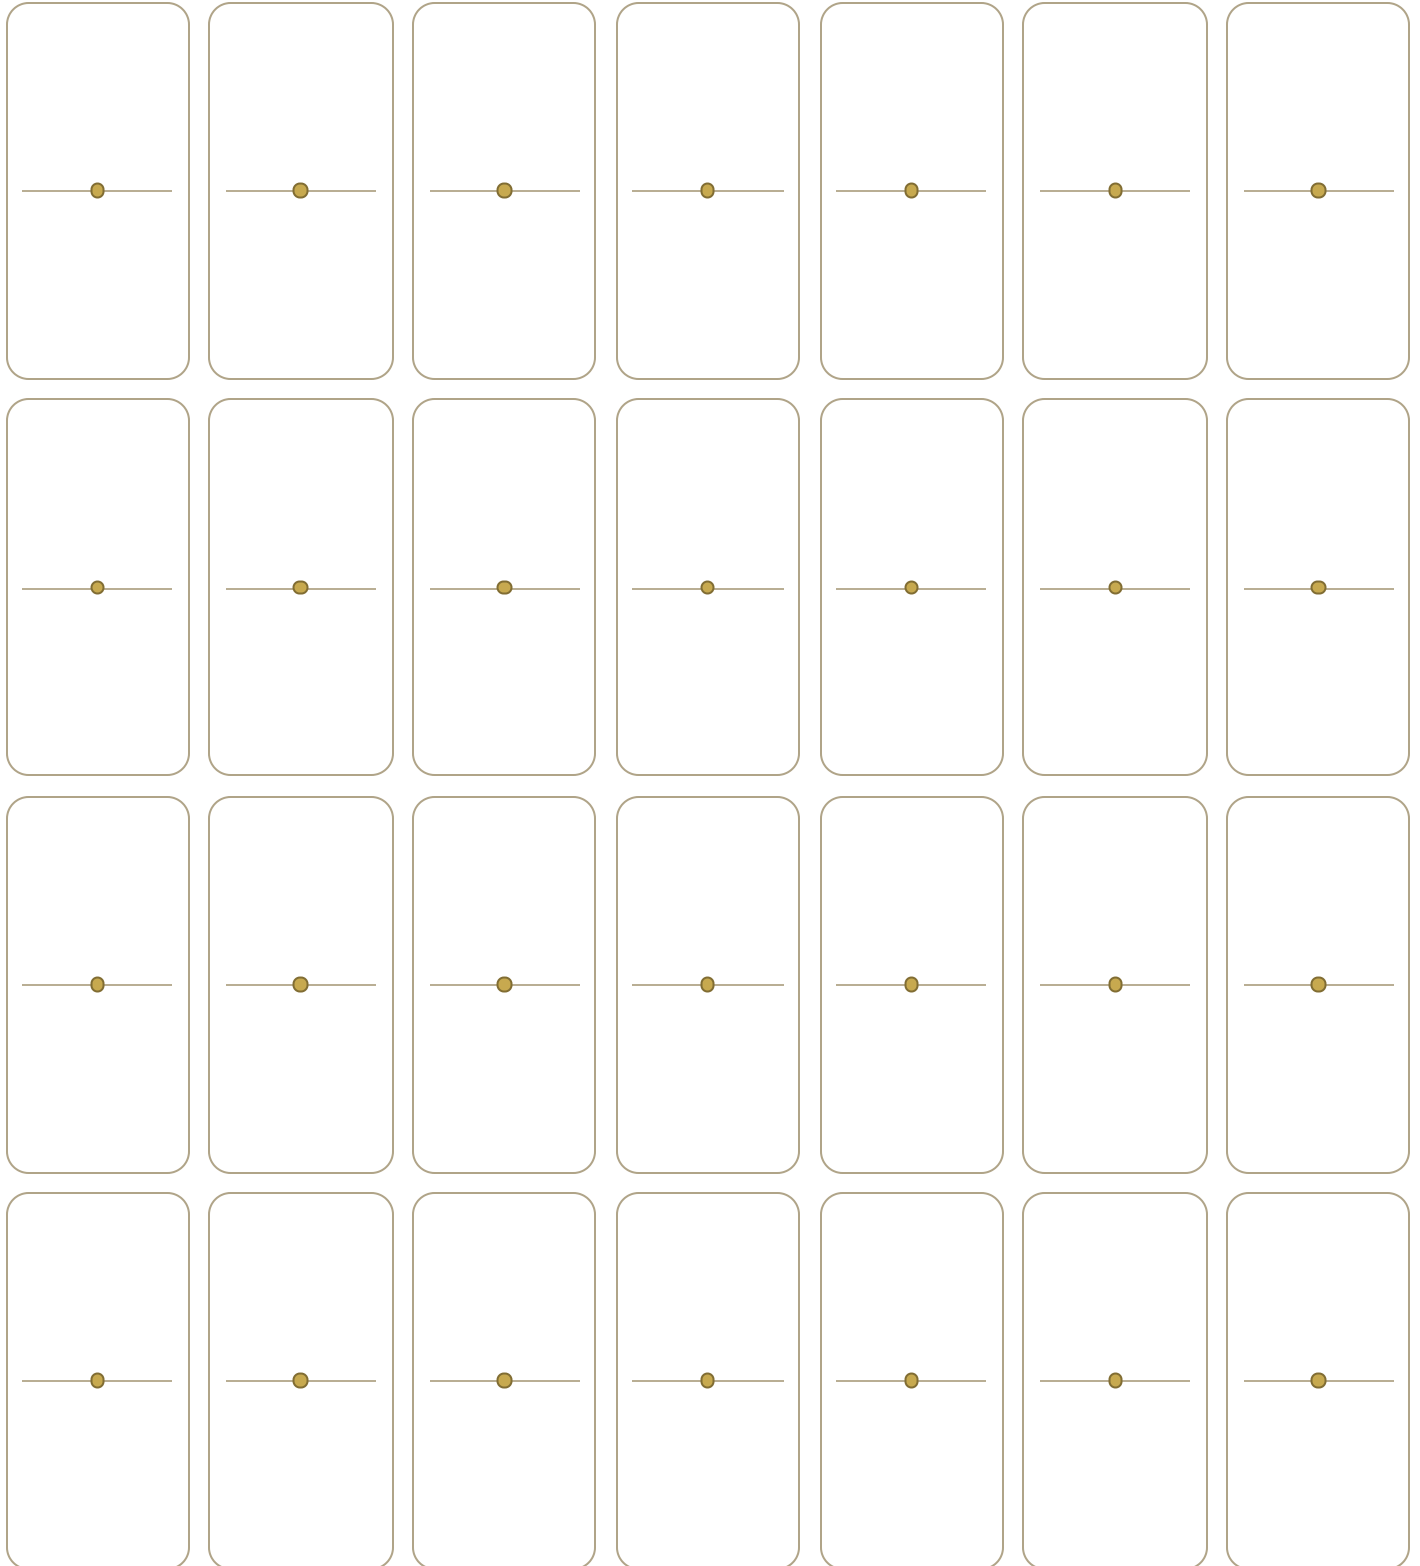

Tips: Print on cardstock (65 lb / 176 gsm or heavier) so the pips you draw don't show through when tiles are face-down, and print at 100% scale rather than "fit to page". These tiles match our printable domino set exactly, so blanks and printed tiles shuffle together. A full double-6 set needs 28 tiles (1 page); double-9 needs 55 (2 pages); double-12 needs 91 (4 pages).

Blank Dominoes — Print & Cut

Make it a game night: blank tiles also work for custom domino games — write words, math problems or pictures on the halves for kids' matching games. For standard play, remember every combination from 0-0 up to your set's highest double appears exactly once. Want the pips printed for you?
